

SUMMER TRAINING PROGRAM IN IMGGE

Summer training program in IMGGE will be organized **from 17th to 28th July 2017**.

The program offers an intensive two week training opportunity for students interested in research careers in life science. The program provides theoretical knowledge and experimental skills necessary for basic manipulations and analysis of nucleic acids and proteins.

The training includes the following molecular biology techniques: DNA, RNA and protein extraction, PCR method, DNA sequencing with sequence analysis, reverse transcription and Real Time PCR, biocatalytical reaction, Western blot and immunostaining, bacterial cultivation, transformation and plasmid DNA extraction, and work with eukaryotic cell cultures.

Each program participant can gain hands-on lab experience under the supervision of experienced researchers from IMGGE. After attending the program, students will gain certificate of completed training in IMGGE.

The price of the course is **920 Eur**. This price includes the cost of the training, the course handbook and lunch. Accommodation with breakfast and dinner for 15 days at a total cost of **250 Eur** can be provided for attending students.

Application **deadline is May 1, 2017**. For applications and additional information please contact us through the e-mail address **courses@imgge.bg.ac.rs**.
